

# GEOVANASCO

## BIO

A native of New York, Geo Vanasco has always had an ear, passion, talent, and respect for music. Trained in both classical and contemporary styles on piano starting at age 5 and becoming a self-taught guitarist & vocalist in later years, he soon found inspiration in a less conventional instrument, the turntable.

Heavily influenced by rock, hip-hop, and electronic music, Geo started out recording mixtapes and DJing house parties for fun. This hobby quickly turned into an undeniable desire to create music professionally. Since 2004 he has continued to do just that, honing his skills by curating and performing unique sets for audiences around the world.

Geo Vanasco's client list includes top hospitality, retail, and charitable organizations such as Hard Rock, Dream, Gansevoort, and W Hotels; Nobu, Armani, Central Park Conservancy, CureSearch For Children's Cancer, and Habitat For Humanity.
